First Steps IT	Next Steps IT
This introductory course is ideal for learners with little or no computer experience. Subjects include: using the keyboard & mouse, Internet and computer safety, online shopping, using an Internet search engine to find information and, using email.	Ideal for learners who would like to improve existing IT skills. Subjects include: advanced email, using comparison web sites, saving money online, digitally repairing a torn photo, making a digital slide show, an introduction to online office apps, and an introduction to using cloud technologies.
First Steps MSOffice	Next Steps MSOffice
Ideal for learners looking to learn new Microsoft Office skills or build on existing ones. Includes: digital file management and introductions to word processing, spreadsheets, designing desktop publications, and creating presentations.	Subjects include: advanced areas of using tables with word processing, getting to grips with formula, autofill and charts with spreadsheets, developing digital presentations and, making a calendar and business cards with desktop publishing.
First Steps Advanced Microsoft Office	First Steps Spreadsheets and Databases
This course is ideal for those who already have some experience of using Microsoft Office and now need a deeper dive into this suite of apps. The course includes setting up a mail merge template, additional MS-Excel skills, as well as a more in depth look at MSPowerPoint.	This course is perfect for anyone interested in discovering more about spreadsheet and database use. The course introduces formulae building, v-lookups, pivot tables, filtering data, logic statements, queries, and relational databases.
Digital Photography	First Steps Photoshop
This course is ideal for those wishing to learn more about using their digital camera to improve their general photo taking. Put into practise learning concerning the exposure triangle, composition, lighting, camera settings and more. Aimed at bridge cameras and digital SLR cameras.	This course is ideal for anyone new to digital image editing. You will be led through the initial steps of creating and editing digital images using the industry standard Photoshop package. Learn about non-destructive editing using the range of layer types offered within Photoshop. No previous Photoshop experience required; some IT skills beneficial.
Math for All	First Steps Digital Photography and Photo Editing
Corinth offers a range of non-accredited math courses that help you learn more around what's expected at GCSE level. This course guides you through some of the core subjects of level 2 math. Ideal for anyone who really wants to get to grips with numbers.	This course is ideal for those familiar with the exposure triangle, composition and manual mode on a camera. The course focuses on the use of colour, modelling techniques, and still life both at point of shooting and postproduction techniques in Photoshop. No previous Photoshop experience necessary.
Talking Italian	First Steps Teaching Adults
These courses are ideal for those just starting out or wishing to improve further their Italian language skills. Great for anyone considering holidaying there.	This course is aimed at those wishing to improve their understanding of teaching within the lifelong learning sector. Learn about learning and teaching styles, experiential learning, lesson prep and planning, classroom management, differentiation in the classroom and more.
